Reproduction Santa Postcard Pillow
Finished size: approx. 10" x 13"

PRINTING THE IMAGE:

You can buy fabric sheets that are ready made for printing on or print the reversed image that is included on to iron-on transfer paper which you then iron on to muslin. You can also iron your muslin to the same size freezer paper and print directly on to the fabric. I recommend an Epson printer and Epson durabrite ink which is permanent if you are going to do this as most other inks will wash out.

Print the image. Cut the image out leaving a ¼" seam allowance all around.

DIRECTIONS:

Cut out 2 strips of fabric for the sides of the pillow, 2 ½" x 10 1/2" and with right sides together, sew them to the sides of the image in a ¼" seam. Cut out 2 strips of fabric for the top and bottom of the pillow, 2 ½" x 11" and with right sides together, sew the strips across the top and bottom in a ¼" seam. Iron the pillow front. Place it right side down onto your fabric and cut out the back of the pillow. Pin together and sew all around the pillow in a ¼" seam, leaving a 3" opening on the bottom for stuffing. Turn the pillow right side out and stuff. Stitch the opening closed and you are done.
