Method

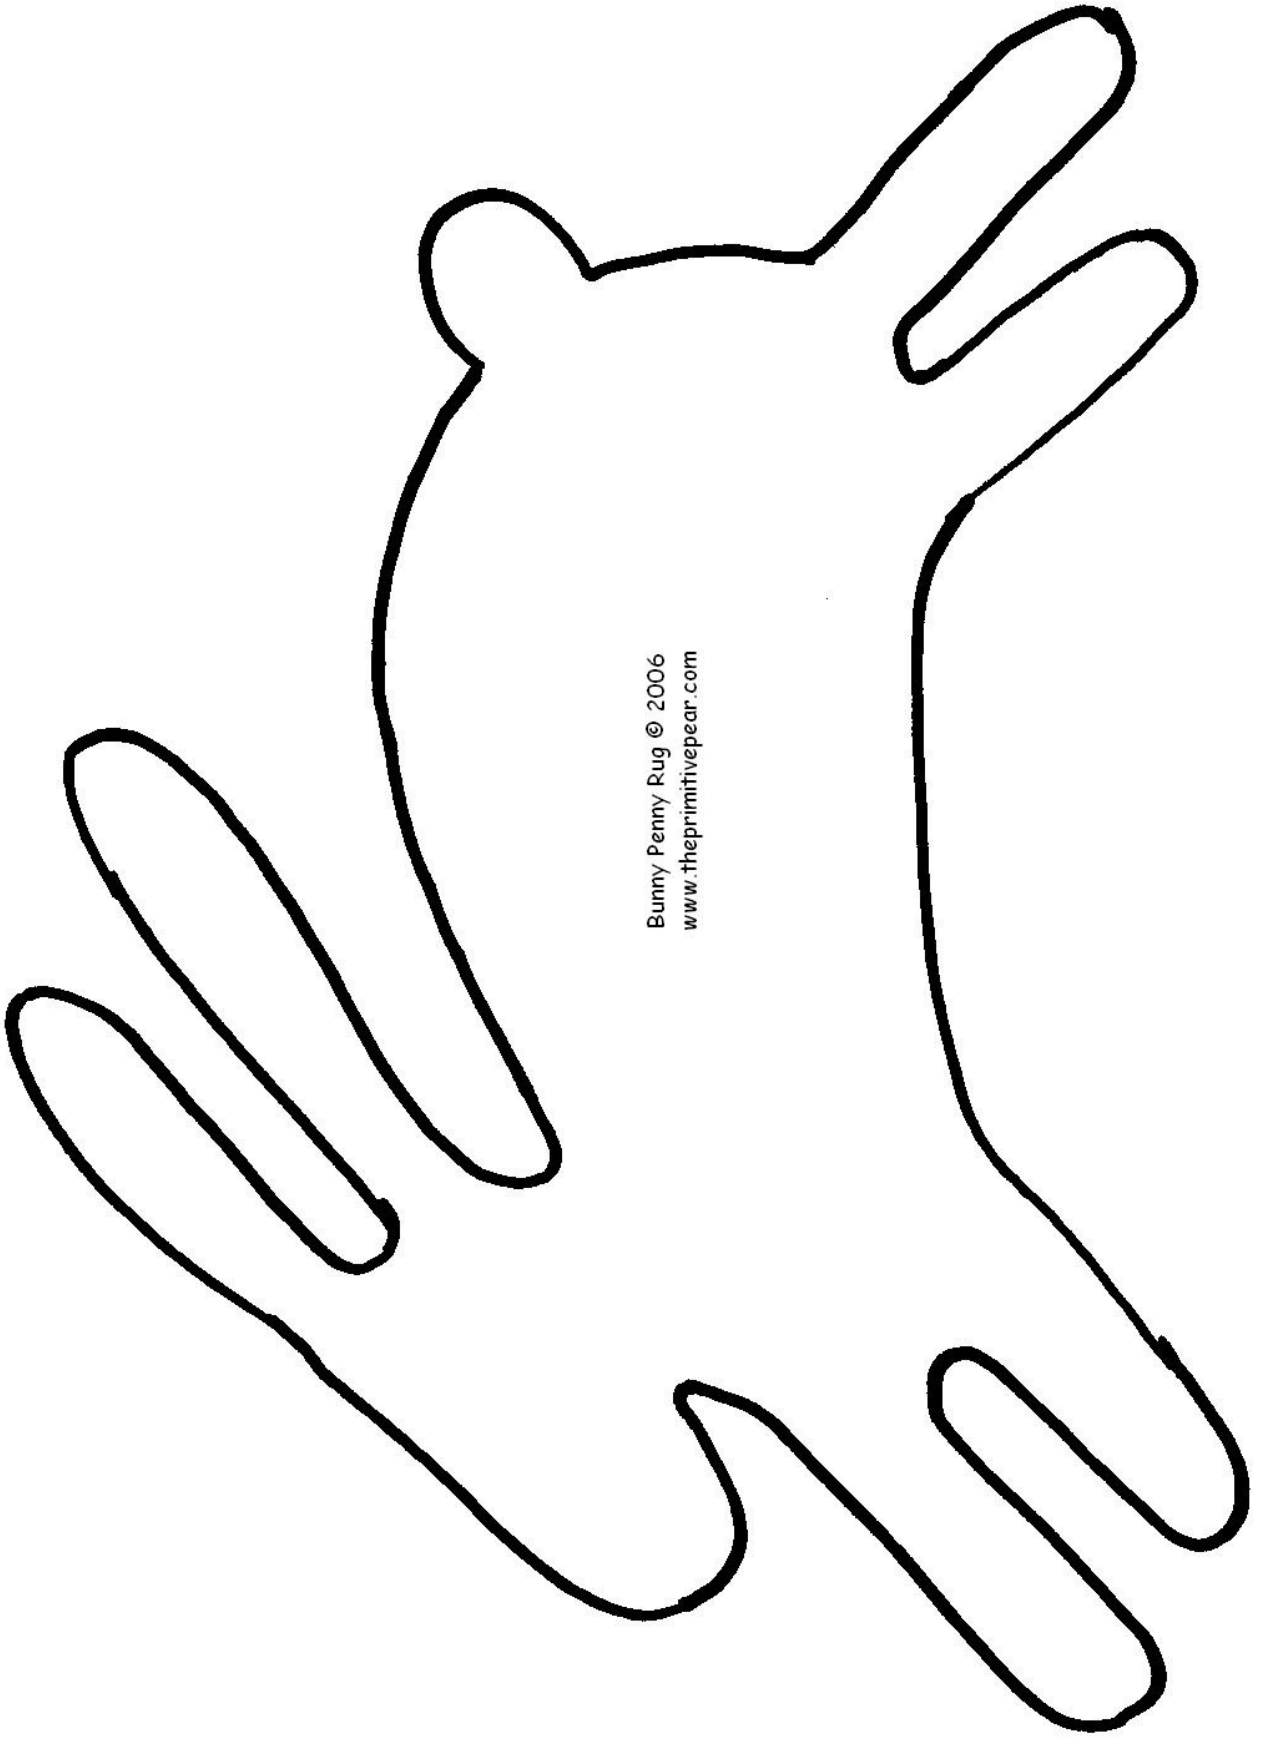

1. First we will trace out the pattern pieces onto the vlisoflex, iron on webbing, we will need 1 bunny shape, 1 large heart, 1 small heart, 20 large circle, 20 medium circle and 20 small circles. Make sure your pencil line is dark and visible. Rough cut about the bunny, large heart and small heart. Now I usually just leave the block of each size of 20 circles whole as each set is going on the same sheet of felt. Iron them all on. Then cut out each shape on the drawn line.
2. On your sheet of black felt, lay out your design as you see it in the photo, you need to leave a little room around the edges, as you will be trimming back to create your scalloped edges. Checking you are happy with placement. Process to peel off backing of the vlisoflex and iron into place. You may need to hold your iron to each piece for a few minutes at a time to secure.
3. Once you have ironed all your pieces onto your background, trim around the penny circles to create your scalloped edge.
4. Using your DMC cottons proceed to blanket stitch around each object. When finished, you may hang your finished Penny Rug for display.
