Supplies:
Scrap of muslin
Green paint
Stuffing
Black embroidery thread
Cinnamon

Make a copy of your pattern then cut it out and lay it on your muslin. With a pencil trace around it and this will become your stitching line. Stitch him up then clip all the curves and corners and stress places. Turn him right side out and stuff firmly. Whip stitch the opening shut. By hand with a needle and thread where indicated on the pattern baste through both layers so that he looks quilted. Next with watered down green paint we will paint him all over and set aside to dry. When dry with 2 strands of embroidery thread make his eyes and knot off. When done rub him all over with cinnamon or paprika and Cornelius is done.
