

Easter Blessings Stitchery

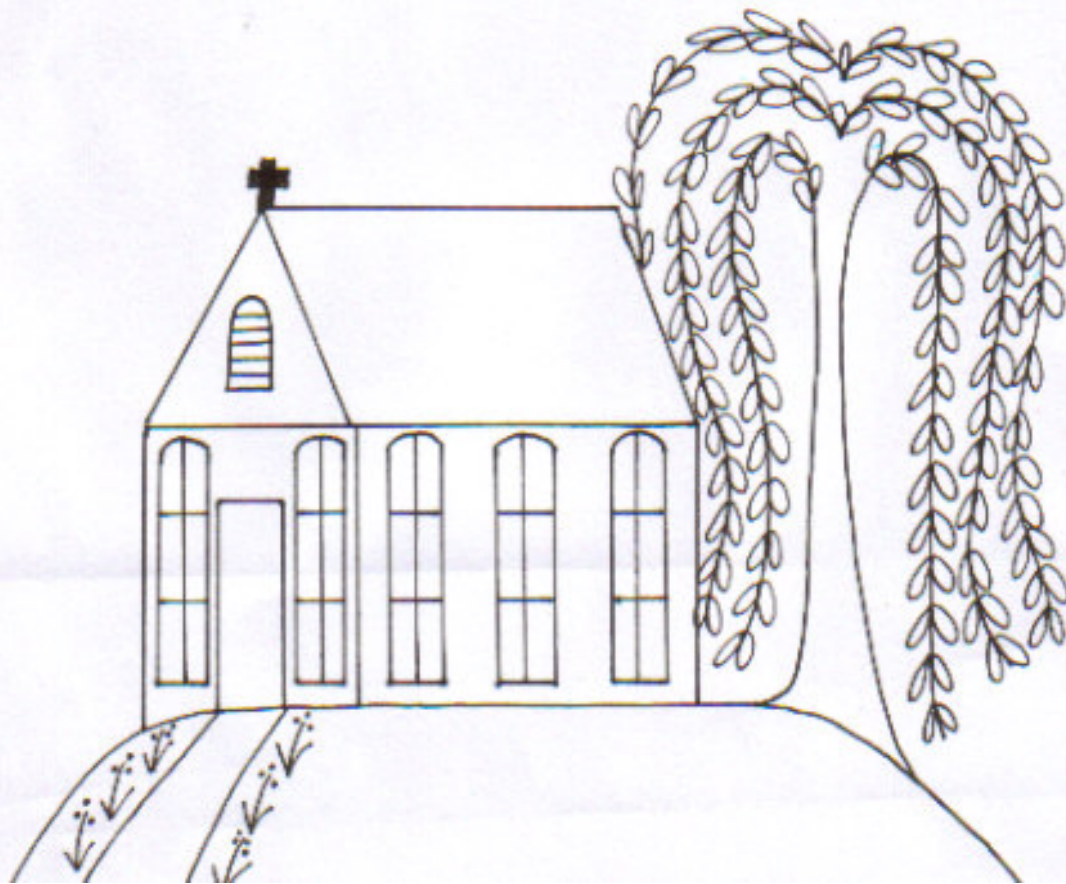

This design is done using a simple backstitch and French knots. You can make it as easy or as complex as you like, by adding different stitches, such as stem or whipped stitches.

The completed design will fit easily into a ready bought frame, or can be incorporated into a cushion or small wall hanging. You will need a piece of muslin, pale patterned cotton or calico measuring approximately 30 cms wide and 35 cms long. (This will allow plenty of fabric to fit into your hoop.) You will also require whatever fabric you need to turn your stitchery into a finished item. You can either use DMC thread or perle thread; whichever makes life easier for yourself!! You can use one colour for the entire piece or you can do it with a variety of different colours. I have used 2 threads of DMC for my stitchery and just the one colour, other than the flowers at the bottom. I have also done mine with pella on the back, but, if you are going to incorporate this into a cushion you can just double the length of your background fabric and not use any pella at all. Okay! You are all set to start stitching..... good luck!!!

Please feel free to use this design for your personal or business use, you are more than welcome to sell finished products on eBay or in your online shops, but, please credit Appleberry Farm as the designer!!! Enjoy!!

Easter Blessings, Church's call
Remember the reason for it all
Embrace the Love surrounding you
Friends, family and a Bunny too
Bow your head in silent prayer
Thanking those you have to care
Take time to thank the Lord above
And the man who died for our Love

It takes but a moment to say "Thank you"

Easter Blessings, Church's call
Remember the reason for it all
embrace the love surrounding you
friends, family and a Bunny too
Bow your head in silent prayer
Thanking those you have to care
take time to thank the Lord above
And the man who died for our love.

It takes but a moment to say "thank you!"
